**Installation Guide**

**SmartCode 6 Touchpad Electronic Deadbolt**

**Use and programming instructions are located on the reverse side of this document.**

**Required Tools**

- Battery pack (L)
- Batteries (AA)
- Batteries only.
- Use new non-rechargeable Alkaline batteries only.
- Ensure correct polarity. For best results, do not install batteries in the lock. If Inclusion is unsuccessful, initiate the Exclusion process at the controller, and initiate the Inclusion process at the controller. Refer to your Z-Wave control system instructions for more information.

**Additional door preparation may be required.**

- Template:
  - For doors with chiseled edge
  - For doors without chiseled edge
  - 2-3/8” (60 mm) holes
  - 2-1/8” (54 mm) holes
  - 1-1/2” (38 mm) holes
  - 1-3/8” (35 mm) — 1-3/4”* (1-3/8” — 1-3/4”*)
  - 1-1/2” (38 mm) holes
  - 2-1/8” (54 mm) holes

- Service kits for 2-1/4” (57 mm) thick doors are available through Weiser.

- Keep “S” in a safe place, as you will need it to access the back panel for additional programming.

**Installation Guide**

1. **Check dimensions**
   - 2-3/8” (60 mm) or 2-3/4” (70 mm)
   - 1-1/2” — 1-3/4”* (33 mm — 44 mm)
   - *Service kit for 2-3/8” (60 mm) hole holes also available through Weiser.

2. **Determine required latch and extend latch bolt**
   - For doors with chiseled edge
   - For doors without chiseled edge
   - Additional door preparation may be required for doors with 1-1/2” (38 mm) holes. Consult the drilling instructions at www.weiserlock.com/doorprep.

3. **Adjust the backset of latch (if needed)**
   - Hold the latch in front of the door lock, with the latch face flush against the door edge.
   - If the latch holes are not centered, adjust latch. See “Latch Adjustments.”

4. **Install latch**
   - For doors with chiseled edge
   - For doors without chiseled edge
   - Additional latch may be required. See “Latch Adjustments.”

5. **Prepare exterior keypad**
   - For doors with 2-1/8” (54 mm) holes
   - For doors with 2-3/8” (60 mm) holes
   - Select models only:
     - Re-key instructions for more information.

6. **Install keypad and mounting plate**
   - Install the battery cover and re-key the lock
   - Programming instructions are located on the reverse side of this document.

7. **Disassemble interior assembly and load battery pack**
   - Ensure correct polarity. For best results, use new non-rechargeable Alkaline batteries only.

8. **Perform the inclusion process**
   - “Inclusion” refers to the process in which the lock is added to a Z-Wave controller.

9. **Install interior assembly**
   - Press and hold “F” button while installing battery pack. DO NOT INSTALL BATTERIES in the lock. If Inclusion is unsuccessful, initiate the Exclusion process at the controller, and initiate the Inclusion process at the controller. Refer to your Z-Wave control system instructions for more information.

10. **Perform door handing process**
    - This step will teach your lock the orientation of your door and is crucial to lock operation.

11. **Install strike**
    - Longer screws install closest to door jamb.

12. **Program the lock**
    - Keys “S” in a safe place, as you will need it to access the lock panel for additional programming.

13. **Install the battery cover and re-key the lock**
    - Select models only:
      - See additional programming instructions for more information.
Enabling and Adding a Mastercode (Optional for Enhanced Security)

Note: Although the arched SmartCode

1. Press Program button. The locked status LED will flash green (about 5 seconds).
2. Enter mastercode. Press Lock button twice.

3. Enter new USER code.
4. Enter the new user code in slot 1, 2, or 3 (switch #3 ON).
5. Press the Program button until the locked status LED flashes green (about 5 seconds).

*If you attempt to enter a new code in a code position being used. The lock will time out and you will need to repeat the procedure.

System Notes

In order to fully utilize this product, you must have a Z-Wave controller compatible with door locks. Z-Wave is a "wireless mesh network," and results may vary based on building construction and communication path between controller and lock. If your system is not installed distance from network controller, it may not be necessary to install additional Z-Wave extending capable add-on that can serve as a repeater to enhance the communication path between the lock and controller for a more robust Z-Wave network.

Deleting User Codes

In order to delete a user code, you must first code the adding a different user code in the same position. For example, if you wanted to delete the third code, add a different user code to the third position before attempting to delete it.

Deleting the Mastercode

1. Press and hold the Program button until the locked status LED flashes green (about 5 seconds).
2. Enter mastercode.
3. Press Lock button twice.
4. Press the Program button to lock the code in. The locked status LED will flash green (about 5 seconds).
5. Set MASTERCODE ON using a Z-Wave controller.
6. Press Lock button twice.
7. Press Lock button twice.
8. Press the Program button to unlock the code. The locked status LED will flash green (about 5 seconds).
9. Set MASTERCODE OFF using a Z-Wave controller. To unlock the code, press the Program button.
11. Press Lock button twice.
12. Press Lock button twice.

NOTE: If you attempt to delete a code in a code position being used, the lock will time out and you will need to repeat the procedure.

Troubleshooting

Problems: The lock is not releasing the correct direction and the tamper will not release.

Solution: The clear breasting process was not completed, if the lock does not close, try the opposite side of the door.

SOLUTION: Press the Program button three times. If you hear the beep after 60 seconds, proceed. The lock is not working.

G Troubleshooting

H Factory Reset

A faulty lock will not unlock the lock, the lock does not have power.

1. Make sure the lock is not reset, if it is, the lock will not reset.
2. Make sure the lock is not reset, if it is, the lock will not reset.
3. Make sure the lock is not reset, if it is, the lock will not reset.
4. Make sure the lock is not reset, if it is, the lock will not reset.
5. Make sure the lock is not reset, if it is, the lock will not reset.
6. Make sure the lock is not reset, if it is, the lock will not reset.
7. Make sure the lock is not reset, if it is, the lock will not reset.
8. Make sure the lock is not reset, if it is, the lock will not reset.
9. Make sure the lock is not reset, if it is, the lock will not reset.
10. Make sure the lock is not reset, if it is, the lock will not reset.
11. Make sure the lock is not reset, if it is, the lock will not reset.
12. Make sure the lock is not reset, if it is, the lock will not reset.
13. Make sure the lock is not reset, if it is, the lock will not reset.
14. Make sure the lock is not reset, if it is, the lock will not reset.
15. Make sure the lock is not reset, if it is, the lock will not reset.
16. Make sure the lock is not reset, if it is, the lock will not reset.
17. Make sure the lock is not reset, if it is, the lock will not reset.
18. Make sure the lock is not reset, if it is, the lock will not reset.
19. Make sure the lock is not reset, if it is, the lock will not reset.
20. Make sure the lock is not reset, if it is, the lock will not reset.
